

Innovative software
for the automatic design of
STARS and **SCREWS** of machinery
for packaging and bottling lines

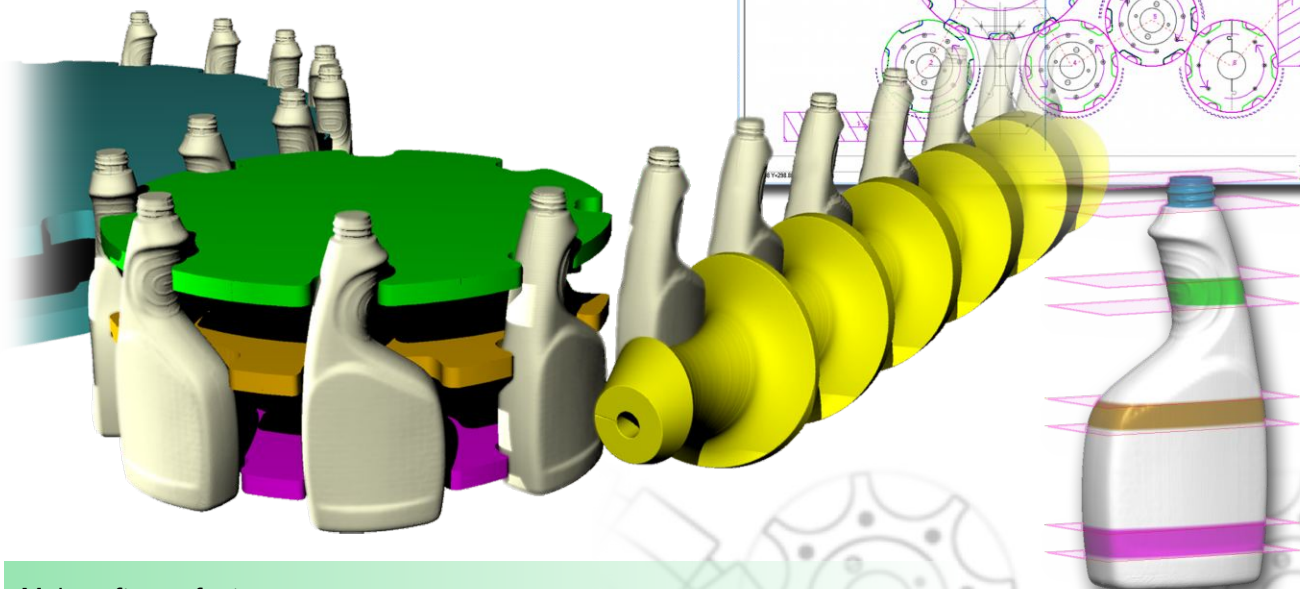

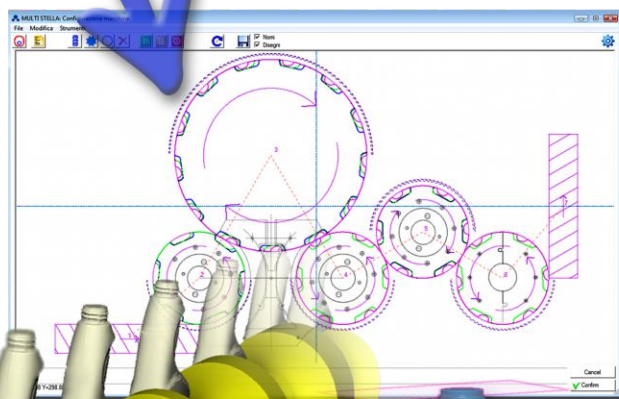

From real bottle...

...to **3D**
model

Automatic
generation of all
STARS and **SCREWS**
of the complete line

Main software features:

- **Simulation** of SCREW / COUNTER SCREW for any motion law
- **Export geometries** (possibility to convert into spline-arcs)
- Possibility to **customize** the **configuration** for specific machines
- **Import** of 3D model from 3D SCANNER or external CAD
- Positioning and **automatic alignment** of the 3D model
- **Definition of the Z quotes** for the stars simulation
- Management of **barycenters** and of the bottle **rotation center**
- **Simulation** for the calculation of the stars profiles
- Compatibility to main CAM / CNC systems

SCANNY3D® s.r.l.

3D laser scanning systems

Head office: Via Archetti 15 - 63831 Rapagnano (FM)

Legal address: Via Colle da sole, 37 - 63814 Torre San Patrizio (FM)

Phone/Fax: 0734.510410 - email: info@scanny3d.com
