

Spheror®

Automatic Photo & Video Creator

Automatic 3D photo studio
STILL-LIFE

Ideal for:

E-commerce

Web catalogues

Presentations

Interactive videos

Datasheets

Automatic catalogue generation

Interactive web catalogues

Spheror® is an innovative, totally automated and entirely "Made in Italy" 3D photo studio, produced and sold all over the world since 2009. This instrument allows you to create PHOTOS, 360° or 3D VIDEOS, WEB or PDF catalogues, data sheets and high definition interactive presentations.

With Spheror® you can get background removal of your high quality PHOTOS, even in case of reflective and transparent objects usually very difficult to photograph, without the need to do post-production. The supplied software is optimized especially for E-COMMERCE applications and fully compatible with INDUSTRY 4.0 standards.
